

Building foundations for life

SAFEGUARDING AND CHILD PROTECTION POLICY

DATE PALM STATEMENT of INTENT

At Date Palm our vision is for the School to ensure our pupils grow like a Date Palm tree – with **strong foundations, lofty branches and produce fresh fruit:**

- ✓ To build **Strong Foundations for Character Development** that:
Instil values; inspire each pupil; display best manners.
- ✓ To have **Lofty Branches of Educational Excellence** that will:
Provide a broad and varied range of experiences and learning opportunities; help each pupil progress and develop in all aspects; support their skills and talents.
- ✓ To produce **Fresh Fruit that provides services to their Communities** in order to:
Become responsible and confident citizens; make a positive difference; commit to charitable endeavours; become effective contributors towards Britain's future.

Safeguarding & Child Protection Policy

RATIONALE

The proprietors and staff fully recognise their responsibilities for child protection and are aware that the safeguarding and promotion of the welfare of children covers more than child protection and is of paramount importance. Our procedures comply with DfE guidance Keeping children safe in education September 2022 (KCSIE) and are in line with the Tower Hamlets safeguarding children board (LSCB).

This Policy applies to all staff, volunteers, visitors and governors; all the procedures have been written in accordance with Keeping Children Safe in Education 2021 and reflect local safeguarding arrangements including the Tower Hamlets Safeguarding Children Partnership Supplementary Guidance documents on Child Protection Procedures and the Management of Allegations.

This policy is available on the school website and from school office on request. Staff can also find this policy on the teachers drive and staff handbook.

This policy is covered during staff induction, staff meeting and annual refresher safeguarding training.

Aims

1. To practise safe recruitment in checking the suitability of staff and volunteers to work with children
2. To raise awareness of child protection issues and equip children with the skills needed to keep them safe.
3. To establish a safe environment in which children can learn and develop.
4. To develop and implement procedures for identifying and reporting cases, or suspected cases, of abuse.
5. To support children who have been abused in accordance with his/her agreed child protection plan.
6. To ensure that children on the school register, of compulsory school age do not miss out on parts of their education through continuous absenteeism.

We recognise that teachers are well placed to observe the outward signs of abuse. The school will create a positive ethos amongst the staff so that we can:

1. Establish and maintain an environment where children feel secure, are encouraged to talk and are listened to.
2. Ensure children know that there are adults in the school whom they can approach if they are worried
3. Include opportunities in the PSHCE curriculum for children to develop the skills they need to recognise and stay safe from abuse.

This policy will be reviewed at least annually unless an incident, new legislation or guidance calls for the need for a review.

1. CORE SAFEGUARDING PRINCIPLES

- The welfare of the child is paramount and underpins all discussions, decision making, and actions taken at the school.
- All concerns disclosed and reported will be taken seriously.
- All children have the right to have a life free from harm, regardless of age, gender, ability, culture, race, language, religion or sexual identity, all have equal rights to protection. This includes children's lives in digital and online environments.
- The child's wishes and feelings will always be taken into account at the school when determining what action to take and what support to provide.
- All staff including supply staff, contractors and volunteers have an equal responsibility to act immediately on any suspicion or disclosure that may suggest a child is at risk of harm or has been harmed.
- The Designated Safeguarding Lead will ensure that all pupils and staff involved in safeguarding and child protection issues will receive appropriate support.

These 6 core principles are embedded within the school's safeguarding arrangements; its safeguarding policies, procedures and systems; and underpin the whole school approach to safeguarding at [Insert Name of School].

2. PURPOSE OF POLICY

- To provide all staff with key information to enable them to identify safeguarding concerns and know what action to take in response.
- To ensure consistent good practice throughout the school.
- To demonstrate the school's commitment to safeguarding to the whole school community: pupils, parents/carers and other partners.

3. SAFEGUARDING LEGISLATION AND GUIDANCE

The following safeguarding legislation and government guidance have informed the content of this policy:

- Section 157 of the Education Act 2002
- The Education (Independent School Standards) Regulations 2014
- Education and Training (Welfare of Children) Act 2021 (16-19 Academies and Independent Training Providers)
- The Safeguarding Vulnerable Groups Act 2006
- The Teacher Standards 2012
- Working Together to Safeguard Children (December 2020)~
- Keeping Children Safe in Education 2021
- What to do if you're worried a child is being abused 2015

- UKCIS Sharing Nudes and Semi-Nudes: Advice for Education Settings Working with Children and Young People (December 2020)
- Sexual Violence and Sexual Harassment between Children in Schools and Colleges: Advice for Schools and Colleges on how to prevent and respond to reports of sexual violence and harassment between children (July 2021)

4. TOWER HAMLETS SAFEGUARDING CHILDREN PARTNERSHIP SUPPLEMENTARY SAFEGUARDING GUIDANCE

The following THSCP safeguarding guidance has informed the content of this policy:

- London Child Protection Procedures revised 6th Edition (London Safeguarding Children Board, March 2021)
- Tower Hamlets SCP Multi-Agency Safeguarding Thresholds Guidance
- Tower Hamlets SCP Supplementary Guidance for Schools and Education Settings on Child Protection Procedures - September 2021
- Tower Hamlets SCP LADO Procedures and Flowchart re Allegations made against staff working in the children's workforce - Information about reporting and managing allegations
- Tower Hamlets SCP Supplementary Guidance for Schools and Education Settings on Managing Allegations of Abuse against Staff – September 2021

5. TOWER HAMLETS SAFEGUARDING CHILDREN PARTNERSHIP

The Children Act 2004 as amended by the Children and Social Work Act 2017 has brought about the establishment of the Tower Hamlets Safeguarding Children Partnership (THSCP). The Partnership coordinates the work of all agencies and ensures that this work is effective in achieving the best outcomes for Tower Hamlets children. The three statutory safeguarding partners have published arrangements to work together to safeguard and promote the welfare of local children, including identifying and responding to their needs. More information about the Tower Hamlets Safeguarding Children Partnership can be found on the website: <http://www.childrenandfamiliestrust.co.uk/the-lscb/>

The school has been named as a 'relevant agency' and as such is under a statutory duty to cooperate with the THSCP arrangements.

The school will engage with the borough's Designated Safeguarding Lead Forums, co-operate with the Rapid Review process and any Local Learning Reviews,¹ participate in the THSCP multi-agency safeguarding training offer, and co-operate with the borough's Section 175/157 School Safeguarding Audit cycle.

6. KEY DEFINITIONS

Safeguarding and promoting the welfare of children is:

- protecting children from maltreatment
- preventing the impairment of a child's physical and mental health or development
- ensuring that children grow up in circumstances consistent with the provision of safe and effective care
- taking action to enable all children to have the best outcomes.

The phrase 'child protection' refers to the processes followed to protect children who have been identified as suffering or being at risk of suffering significant harm.

Child includes everyone under the age of 18.

Parent refers to birth parents and other adults who are in a parenting role, for example step-parents, carers, foster carers, and adoptive parents.

Staff refers to all those who work for the school or on behalf of the school, full time or part time, temporary or permanent, in either a paid or voluntary capacity.

7. ROLES AND RESPONSIBILITIES

The Governing Body/Trustees/Proprietor have the strategic leadership responsibility for safeguarding arrangements at the school. As a collective body it must have regard to all relevant statutory guidance issued, including Keeping Children Safe in Education 2021, and ensure that school's safeguarding policies and procedures, including the current Child Protection Policy, are compliant with legislation and statutory guidance, reflect local safeguarding arrangements and are effective.

In accordance with the statutory requirement the named member of the Governing Body who takes leadership responsibility for safeguarding at the school is Sabina Yesmin and they are referred to as the Safeguarding Link Governor.

¹ For more information on the Rapid Review process, Local Learning Reviews and Child Death Reviews, Working Together 2018 Chapters 4 and 5 should be consulted. Working Together 2018 paragraphs 25-27 provide more information on the expectation of school's role within the safeguarding partnership arrangements.

The Head Teacher is responsible for ensuring that the school's Child Protection Policy and other safeguarding policies are communicated to all staff, understood by all members of staff, and followed by all members of staff.

The Designated Safeguarding Lead takes the ultimate lead responsibility for safeguarding arrangements within the school on a day-to-day basis.

Designated Safeguarding Lead	Afsana Khanam
Deputy Designated Safeguarding Lead	Sharifa Khatun
Digital Safeguarding Lead	Saira Karim
SENDCO	Luthfa Begum
Safeguarding- Link Governor	Sabina Yesmin
Chair of Governors	Kiran Rahma
Mental Health First Aider	Afsana Khanam
Designated Teacher	Saira Karim

If the DSL is not available, any concerns must be reported to the DDSL.

All staff should recognise that as frontline workers they are in an important position to identify concerns early, provide help and support to children, promote children's welfare, and prevent concerns from escalating.

All staff have a responsibility to provide a safe environment in which children can learn.

All staff have a responsibility to report safeguarding concerns immediately to the DSL.

Dealing with a Disclosure

If a child reports a conversation you have initiated or otherwise, that they are being abused or neglected the following procedure should be followed:

1. Listen to the pupil, take their allegation seriously and reassure them that you will take action to keep them safe.
2. Do not interrupt if he or she is recalling a significant event; the first account is usually the most accurate.
3. Do not guarantee confidentiality; referrals may have to be made in order to safeguard the pupil
4. Ensure that any questions that need to be asked to clarify understanding are as open as possible and do not lead the pupil.
5. Report orally to the designated teacher as soon as possible but certainly on the same day. If the DSL is not available, report to the Deputy Head, Headteacher or Principal.
6. Keep any suspicions confidential and not discuss them with anyone other than those mentioned above

7. Make a written note of the discussion as soon as possible and at least within 24 hours to give to the DSL. Note time, date, place, people present and what was said. Records should be verbatim; the notes may be needed in subsequent court proceedings. All notes should be signed.
8. Teachers are not required to investigate further, but may be required to support or monitor the pupil in the future.
9. Members of staff have the right to contact the child protection agencies independently if it is felt that the school has not responded appropriately to concerns.

If in doubt about any safeguarding matter, staff should always speak to the DSL.

All staff are expected to keep safeguarding values at the core of their daily conduct. The best interests of the child should determine their decision making, behaviour and any action taken.

8. CHILDREN WHO MAY BE POTENTIALLY MORE AT RISK OF HARM

All staff should recognise that all children are vulnerable but some children may be more vulnerable than others and at more risk of harm. Children known to a Social Worker, Looked After Children and Care Leavers are likely to have suffered abuse at some point in their childhood and may be more vulnerable to further abuse including exploitation. Staff need to be aware that other children who may be potentially more at risk of harm include

A Child who:

- is disabled or has certain health conditions and has specific additional needs;
- has special educational needs (whether or not they have a statutory Education, Health and Care Plan);
- has a mental health need;
- is a young carer;
- is showing signs of being drawn in to anti-social or criminal behaviour, including gang involvement and association with organised crime groups or county lines;
- is frequently missing/goes missing from care or from home;
- is at risk of so-called honour based abuse such as Female Genital Mutilation or Forced Marriage;
- is at risk of modern slavery, trafficking or exploitation;
- is at risk of being radicalised or exploited;
- is in a family circumstance presenting challenges for the child, such as drug and alcohol misuse, adult mental health issues and domestic abuse
- is misusing drugs or alcohol themselves;
- has returned home to their family from care; and
- is a privately fostered child;
- is persistently absent from education, including persistent absences for part of the school day.

Staff must be more vigilant in their day-to-day work with children when the above vulnerabilities are known and report all concerns immediately to the Designated Safeguarding Lead.

9. CHILDREN IN NEED OF A SOCIAL WORKER

Children who have been allocated a social worker may have experienced abuse including neglect and belong to a family that has many complex circumstances. Staff should recognise that these children will have experienced adversity and trauma that can leave them vulnerable to further harm, as well as educationally disadvantaged, and have a negative impact on their attendance, learning, behaviour and mental health.

When making decisions about safeguarding, carrying out risk analysis, making a safeguarding response to concerns such as unauthorised and persistent absence, and providing pastoral and academic support, the school will take seriously the fact that the child in need of a social worker will require enhanced pastoral and academic support alongside that provided by statutory services.

School is also committed to providing further pastoral and academic support to children who have had historic contact with a Social Worker, in recognition that the abuse and trauma is likely to have an impact on the child beyond the duration of the involvement of statutory services.

[Insert a statement about what the implications are for staff in terms of what action they need to take in relation to Children known to a Social Worker]

10. CHILDREN REQUIRING MENTAL HEALTH SUPPORT

All staff have an important role in supporting the mental well-being of children and to identify behaviour that may suggest a child is experiencing mental health problems. All staff need to recognise that mental health may be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation. Staff should be aware of the trauma and mental health impact on a child who has had adverse childhood experiences including abuse, bereavement and separation of parents. Staff should also be aware that the pandemic has had a negative impact on the mental health of many children, some of whom have never previously experienced difficulties with their mental health. However, all staff should be clear that only appropriately trained professionals should attempt to make a diagnosis of a mental health difficulty.

All staff should be aware that mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation.

Only appropriately trained professionals should attempt to make a diagnosis of a mental health problem. Education staff, however, are well placed to observe children day-to-day and identify

those whose behaviour suggests that they may be experiencing a mental health problem or be at risk of developing one.

Where children have suffered abuse and neglect, or other potentially traumatic adverse childhood experiences, this can have a lasting impact throughout childhood, adolescence and into adulthood. It is key that staff are aware of how these children's experiences can impact on their mental health, behaviour and education.

Staff can access a range of advice to help them identify children in need of extra mental health support, this includes working with external agencies.

More information can be found in the mental health and behaviour in schools guidance. If staff have a mental health concern about a child that is also a safeguarding concern, immediate action should be taken, following the school's policy, and speaking to the DSL or a deputy.

11. LOOKED AFTER CHILDREN AND PREVIOUS LOOKED AFTER CHILDREN

The DSL and Designated Teacher will work with relevant agencies and take immediate action to safeguard and provide support to this vulnerable group of children.

The most common reason for children becoming looked after is as a result of abuse including neglect.

The governing body/proprietor will ensure staff have the skills, knowledge and understanding to keep looked after children safe. The governing body/proprietor will ensure there are arrangements in place so that appropriate staff have the information they need in relation to a child's looked after legal status (whether they are looked after under voluntary arrangements with consent of parents, or on an interim or full care order) and the child's contact arrangements with birth parents or those with parental responsibility.

Appropriate staff will also have information about the child's care arrangements and the levels of authority delegated to the carer by the authority looking after the child.

The DSL should have the details of the child's social worker and the name of the virtual school head in the authority that looks after the child. A previously looked after child potentially remains vulnerable and all staff should have the skills, knowledge and understanding to keep previously looked after children safe.

The governing body/proprietor recognise that when dealing with looked after children and previously looked after children, it is important that all agencies work together and prompt action is taken when necessary to safeguard these children, who are a particularly vulnerable group.

12. SEND CHILDREN

Children with special educational needs and disabilities (SEND) or physical health issues can face additional safeguarding challenges. Additional barriers can exist when recognising abuse and neglect in this group of children, which can include:

- professionals and other adults making assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's disability without further exploration
- the potential for children with SEN and disabilities or certain medical conditions being vulnerable to experiencing peer exclusion and isolation and being disproportionately impacted by behaviours such as bullying (including prejudice-based bullying), without outwardly showing any signs;
- children not understanding that what is happening to them is abuse; and
- communication barriers when reporting abuse and difficulties in overcoming these barriers.

For some disabled children, their dependency on parents and carers for practical assistance in daily living, including intimate personal care, may increase their risk of exposure to abusive behaviour. Some children may also have an impaired capacity to resist or avoid abuse. Looked After Disabled Children may be particularly susceptible to possible abuse because of their additional dependency on residential and hospital staff for day to day physical care needs.

Further information on safeguarding SEND children is available in the non-statutory guidance Safeguarding Disabled Children (2009), but staff should speak with the DSL and SENDCO in the first instance.

All staff are regularly trained to understand and be aware of the additional barriers that exist when safeguarding SEND children. All staff need to be aware that SEND children may be more vulnerable when online and using digital platforms, and it is important that Online Safety lessons and related advice are tailored to their individual needs.

Children with SEND are regularly reviewed and spoken through using pupil voice documents to ensure that their views are heard and acknowledged. Children with communication and language difficulties are communicated by using social stories to allow for better understanding and access to safeguarding systems.

13. CHILDREN MISSING EDUCATION AND CHILDREN MISSING

The school closely monitors attendance, absence and exclusions. A child going missing from education is a potential indicator of abuse and neglect, including child sexual abuse, child sexual exploitation, child criminal exploitation or mental health problems. Staff should be alert to children

already known to be vulnerable going missing from education especially Children known to a Social Worker and Looked After Children.

The school follows up on absences as part of its safeguarding duty. Staff must be alert to signs of children at risk of travelling to conflict zones, female genital mutilation and forced marriage.

Children missing education, particularly persistently, can indicate a warning sign to a range of safeguarding issues including neglect, sexual abuse and child sexual and criminal exploitation. It is important that the school's response to children missing from education supports identifying such abuse and also helps prevent the risk of them going missing in the future.

This includes when problems are first emerging but also where children are already known to LA children's social care and need a social worker (such as on a child in need or child protection plan, or as a looked after child), where going missing from education may increase known safeguarding risks within the family or in the community. As such, all staff should be aware of the school's safeguarding response to children missing from education. Further information and support includes:

- Schools' duties regarding children missing education, including information schools must provide to the LA when removing a child from the school roll at standard and non-standard transition points can be found in the DfE's statutory guidance: Children Missing Education.
- General information and advice for schools can be found in the Government's Missing Children and Adults Strategy.

(See School Attendance Policy)

When a pupil does not return to school and the whereabouts of the child and their family are not known after the school has made initial inquiries, the school must refer to the Local Authority using a Missing Children referral form.

Contact: LBTH CME Officer, Tower Hamlets Education Safeguarding Service,
Saadia.Anwer@towerhamlets.gov.uk 020 7364 3426 / 07562 431 817

14. ELECTIVE HOME EDUCATION

The school recognises that parents have a legal right to electively home educate their child at home; however, it is expected that the parents' decision to do this is made with their child's best education and best interests at its heart. Staff should be aware that even though most home educated children have a positive experience, this is not the case for all, and home education can mean some children are less visible to the services that are there to keep them safe and supported in line with their needs.

When a parent informs the head teacher of their intention to electively home educate their child, the school will convene and coordinate a meeting between the LA, relevant school staff, parents and all key professionals currently working with the child and family. In accordance with LBTH Policy this meeting must occur before any final decision is made by the parents, to ensure that the best interests of the child have been taken fully into account and carefully considered. The occurrence

of this meeting is especially important when the children have known vulnerabilities including Children known to a Social Worker and SEND children.

15. WHISTLEBLOWING

All staff members have a responsibility to raise concerns about poor or unsafe practice and potential failures in any aspect of the school's safeguarding arrangements and staff should feel confident that such concerns will be taken seriously by the senior leadership team.

[See Whistleblowing Policy]

Where a staff member feels unable to raise an issue with their employer, or feels that their genuine concerns are not being addressed, they should consider other channels available including:

The NSPCC Whistleblowing Advice Line 0800 028 0285 which is free & anonymous, more information can be found at nspcc.org.uk/whistleblowing.

16. ALLEGATIONS AGAINST STAFF & REPORTING OF LOW-LEVEL CONCERNS

Allegations of harm may indicate that a person who works with children might pose a risk of harm to children if they continue in that role. When an allegation is made against a member of staff including supply staff and volunteers, the school's Managing Allegations Procedures should be followed, and all action taken needs to be in line with KCSIE 2022 Part 4 and THSCP Supplementary Guidance- Managing Allegations of Abuse against Staff – September 2021.

An allegation is made against a member of staff including supply staff, volunteers, contractors and governors, when an individual has:

- behaved in a way that has harmed a child, or may have harmed a child;
- possibly committed a criminal offence against or related to a child;
- behaved towards a child or children in a way that indicates he or she may pose a risk of harm to children; or
- behaved or may have behaved in a way that indicates they may not be suitable to work with children.

All staff must report all allegations, irrespective of the source, directly to the Head Teacher and ensure that it is put in writing, signed and dated. If the subject of the allegation is the head teacher then the allegation should be directly reported to the Chair of Governors.

On receipt of a report of an allegation, the head teacher will make immediate contact with the Local Authority Designated Officer for an initial discussion. If the allegation concerns the head teacher, then the Chair of Governors shall make contact with the LADO.

When an allegation is made against a supply member of staff, the head teacher will be the case manager and take the lead in contacting the LADO.

Allegations concerning staff who no longer work at the school, or historical allegations will be reported to the police.

LBTH Local Authority Designated Officer (LADO): Melanie Benzie

Email: Melanie.Benzie@towerhamlets.gov.uk or LADO@towerhamlets.gov.uk

Telephone: 0207364 0677

Concerns about staff that do not meet the harm threshold and the allegation criteria set out above are known as Low-Level Concerns. Staff should report low-level concerns and self-report low-level concerns about themselves in accordance with the school's procedures on low-level concerns, which are found in the school's Staff Code of Conduct.

17. STAFF TRAINING

The governing body will ensure that all staff receive appropriate safeguarding and child protection training which is regularly updated and in line with advice from SSP.

In addition, all staff members will receive regular safeguarding and child protection (including online safety) updates (for example, via email, e-bulletins, staff meetings) as required, but at least annually, to provide them with relevant skills and up to date knowledge of emerging and evolving safeguarding issues to safeguard children effectively.

All new staff members will undergo safeguarding and child protection training at induction. This will include training on the school's safeguarding policy, online safety, staff acceptable use of IT agreement, the code of conduct/staff behaviour policy, the Behaviour & Antibullying policy for children, the safeguarding response to children who go missing from education, and the role of the designated safeguarding lead.

Copies of the school's policies, procedures and Part One of KCSIE 2022 will be provided to new staff at induction.

The governing body will ensure that safeguarding training for staff, including online safety training, is integrated, aligned and considered as part of the whole school safeguarding approach and wider staff training and curriculum planning.

The DSL will ensure that an accurate record of safeguarding training undertaken by all staff is maintained and updated regularly. In considering safeguarding training arrangements the governing body will also have regard to the Teachers' Standards which set out the expectation that all teachers manage behaviour effectively to ensure a good and safe educational environment and require teachers to have a clear understanding of the needs of all pupils.

18. VISITORS

All visitors are vetted prior to visit (See Visitors policy) ensuring that the children are safeguarded during the duration of the visit. The school conducts research on the person/organisation to establish whether they have demonstrated extreme views/actions. Vetted visiting speakers must complete a form in which they outline the information they wish to communicate in line with school guidance. ID checks are completed upon arrival at school and visitors are always accompanied.

19. EXTENDED SCHOOL AND OFF-SITE ARRANGEMENTS

Where extended school activities are provided by and managed by the school, our own Safeguarding Policy and procedures apply. If other organisations provide services or activities on our site we will check that they have appropriate procedures in place, including safer recruitment procedures.

When our pupils attend off-site activities, including day and residential trips and work related activities, we will check that effective safeguarding arrangements are in place and a full pre visit risk assessment will be carried out

Where services or activities are provided separately by another organisation, the school will seek assurance that the organisation has effective safeguarding policies and procedures in place. The school will ensure that all safeguarding requirements are set out clearly in the lease or hire agreement with the organisation, as a condition of use and occupation of the school premises; and that failure to comply would lead to the termination of the agreement.

20. IDENTIFYING ABUSE

Abuse and neglect are forms of maltreatment. Somebody may abuse or neglect a child by inflicting harm, or by failing to act to prevent harm. Abuse may be carried out by adults and other children.

The school is aware that children can be at risk of abuse, harm and exploitation beyond the family home. Extra familial harms include sexual exploitation, criminal exploitation, serious youth violence, and abuse that occurs on digital and online platforms. All staff especially the DSL and Deputy DSLs must consider whether children are at risk of harm and exploitation in environments outside the family home. All staff should therefore apply a Contextual Safeguarding approach when safeguarding children in the setting.

21. INDICATORS OF ABUSE

Physical - may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Sexual - involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse. Sexual abuse can take place online, and technology can be used to facilitate offline abuse. Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.

Emotional - the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability as well as overprotection and limitation of exploration and learning, or preventing the child from participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Neglect - the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy, for example, as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to: provide adequate food, clothing and shelter (including exclusion from home or abandonment); protect a child from physical and emotional harm or danger; ensure adequate supervision (including the use of inadequate care-givers); or ensure access to appropriate medical care or treatment.

The school is aware of the borough's [LBTH Neglect Guidance](#) toolkit and all staff should understand their important frontline role in identifying children who may be suffering from Neglect.

22. VOICE OF THE CHILD

Staff need to be aware of and promote the systems in place at the school which enable children to share their concerns and report abuse confidently, because they know that their concerns will be taken seriously by staff and action will be taken to safeguard and protect them.

Through our curriculum (e.g. PSHCE, Islamic Studies) we foster children's confidence to speak about sensitive issues and report any concerns or abuse. Throughout the school, e-safety and anti-bullying posters are displayed with contact details of relevant professions, both internally and externally,

and children are aware of reporting procedures. Each class has Zones of Regulation posters to allow children to select the emotion they are feeling and the coping strategies available to them.

23. SAFEGUARDING ISSUES

24. CHILD SEXUAL EXPLOITATION

Child Sexual Exploitation is a form of child sexual abuse. CSE occurs where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child into sexual activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial advantage or increased status of the perpetrator or facilitator. The victim may have been sexually exploited even if the sexual activity appears consensual. Apart from age other factors that could make a child more vulnerable to exploitation, include gender, sexual identity, cognitive ability, learning difficulties, communication ability, physical strength, status, and access to economic or other resources.

CSE can include both contact (penetrative and non-penetrative acts) and non-contact sexual activity such as involving children in the production of sexual images, forcing children to look at sexual images or watch sexual activities, encouraging children to behave in sexually inappropriate ways or grooming a child in preparation for abuse including via the internet. CSE can occur over time or be a one-off occurrence and may occur without the child or young person's immediate knowledge (e.g. through others copying videos or images they have created and posted on social media).

CSE can affect any child or young person (male or female) under the age of 18 years, including 16 and 17 year olds who can legally consent to have sex. Some children may not realise they are being exploited, as they may believe they are in a genuine romantic relationship. Children may also be exploited by other children, who themselves may be experiencing exploitation – where this is the case, it is important that the child perpetrator is also recognised as a victim.

Staff should be vigilant and be aware of the following indicators of CSE, which is by no means an exhaustive list, and reports all concerns immediately to the DSL:

- Children who are in possession of multiple phones and overly anxious to check their phones
- Children who experience sudden changes in behaviour e.g. looking agitated, children who want to leave the school premises at lunchtime
- children who have older boyfriends or girlfriends;
- children who suffer from sexually transmitted infections or become pregnant.
- children who appear with unexplained gifts or new possessions;
- children who associate with other young people involved in exploitation;
- children who suffer from changes in emotional well-being;
- children who misuse drugs and alcohol;
- children who go missing for periods of time or regularly come home late; and

- children who regularly miss school or education or do not take part in education.

For further information staff can read the [Home Office Statutory Guidance](#) on Child Sexual Exploitation as well as speaking to the DSL.

25. CHILD CRIMINAL EXPLOITATION INCLUDING COUNTY LINES

Child Criminal Exploitation is where an individual or group takes advantage of an imbalance of power to coerce, control, manipulate or deceive a child into any criminal activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial or other advantage of the perpetrator or facilitator and/or (c) through violence or the threat of violence. The victim may have been criminally exploited even if the activity appears consensual. CCE does not always involve physical contact; it can also occur through the use of technology.

CCE can include children being forced to work in cannabis factories, being coerced into moving drugs or money across the country through County Lines, forced to shoplift or pickpocket, or to threaten other young people. They can also be forced or manipulated into committing vehicle crime or threatening/committing serious violence to others.

Children can become trapped by this type of exploitation as perpetrators can threaten victims (and their families) with violence, or entrap and coerce them into debt. They may be coerced into carrying weapons such as knives or begin to carry a knife for a sense of protection from harm from others.

As children involved in criminal exploitation often commit crimes themselves, their vulnerability as victims is not always recognised by adults and professionals, (particularly older children), and they are not treated as victims despite the harm they have experienced. They may still have been criminally exploited even if the activity appears to be something they have agreed or consented to

All Staff should be aware that girls as well as boys can be risk of CCE. It is important for staff to note that boys or girls being criminally exploited are at higher risk of being sexually exploited.

Staff need to be aware of some of the indicators of CCE:

- Children who are in possession of multiple phones and overly anxious to check their phones
- Children who experience sudden changes in behaviour e.g. looking agitated, children who want to leave the school premises at lunchtime
- children who appear with unexplained gifts or new possessions;
- children who associate with other young people involved in exploitation;
- children who suffer from changes in emotional well-being;
- children who misuse drugs and alcohol;
- children who go missing for periods of time or regularly come home late; and
- children who regularly miss school or education or do not take part in education.

County Lines is a term used to describe gangs and organised criminal networks involved in exporting illegal drugs using dedicated mobile phone lines or other form of “deal line”. This activity can happen locally as well as across the UK - no specified distance of travel is required. Children and vulnerable adults are exploited to move, store and sell drugs and money. Offenders will often use coercion, intimidation, violence (including sexual violence) and weapons to ensure compliance of victims.

Children can be targeted and recruited into county lines in a number of locations including schools (mainstream and special), further and higher educational institutions, pupil referral units, children’s homes and care homes.

Children are also increasingly being targeted and recruited online using social media. Children can easily become trapped by this type of exploitation as county lines gangs can manufacture drug debts which need to be worked off or threaten serious violence and kidnap towards victims (and their families) if they attempt to leave the county lines network.

Many of the indicators of children involved in County Lines are as described above under CCE. However, in addition they can include children who:

- go missing from education and/or home and subsequently found in areas away from their home;
- have been the victim or perpetrator of serious violence (e.g. knife crime);
- are involved in receiving requests for drugs via a phone line, moving drugs, handing over and collecting money for drugs;
- are exposed to techniques such as ‘plugging’, where drugs are concealed internally to avoid detection;
- are found in accommodation that they have no connection with, often called a ‘traphouse or cuckooing’ or hotel room where there is drug activity;
- owe a ‘debt bond’ to their exploiters;
- have their bank accounts used to facilitate drug dealing

There increase vulnerability of children under 10 years old being exploited because they are under the age of criminal responsibility.

26. SERIOUS YOUTH VIOLENCE

All staff are aware of indicators, which may signal that children are at risk from, or are involved with serious violent crime. These may include increased absence from school, a change in friendships or relationships with older individuals or groups, a significant decline in performance, signs of self-harm or a significant change in wellbeing, or signs of assault or unexplained injuries. Unexplained gifts or new possessions could also indicate that children have been approached by, or are involved with, individuals associated with criminal networks or gangs.

27. ONLINE HARMS

Children should have the right to explore the digital environment but also the right to be safe when on it. However, the use of technology has become a significant component of many safeguarding issues. Examples of which include child sexual exploitation; child criminal exploitation; radicalisation; sexual predation/grooming; and forms of peer-on-peer abuse. Technology often provides the platform that facilitates harm.

In many cases abuse will take place concurrently via online channels and in daily life. Children can also abuse their peers online, this can take the form of abusive, harassing, and misogynistic messages, the non-consensual sharing of indecent images, especially via chat groups, and the sharing of abusive images and pornography, to those who do not want to receive such content.

An effective approach to online safety empowers a school to protect and educate the whole school community in their use of technology and establishes mechanisms to identify, intervene in, and escalate any incident where appropriate.

The breadth of issues classified within online safety is considerable, but can be categorised into four areas of risk:

- Content: being exposed to illegal, inappropriate or harmful material; for example, pornography, fake news, racism, prejudice-based content, misogyny, self-harm, suicide, anti-Semitism, radicalisation and extremism;
- Contact: being subjected to harmful online interaction with other users; for example, peer to peer pressure, commercial advertising as well as adults posing as children or young adults with the intention of grooming or exploiting them for sexual, criminal, financial or other purposes;
- Conduct: personal online behaviour that increases the likelihood of, or causes, harm; for example, making, sending and receiving explicit images (e.g., consensual or non-consensual sharing of nudes and semi-nudes), and/or pornography, sharing other explicit images and online bullying.
- Commerce: risks such as online gambling, inappropriate advertising, phishing and or financial scams. When pupils are at risk of phishing, school can report concerns to the Anti-Phishing Working Group (<https://apwg.org/>).

Cybercrime is criminal activity committed using computers and/or the internet. It is broadly categorised as either 'cyber-enabled' (crimes that can happen off-line but are enabled at scale and at speed on-line) or 'cyber dependent' (crimes that can be committed only by using a computer).

When there are concerns about a child in this area, staff should notify the DSL, who will consider referring the child into the Cyber Choices programme (cyberchoices.uk). It aims to intervene where young people are at risk of committing, or being drawn into, low level cyber-dependent offences and divert them to a more positive use of their skills and interests.

In line with the school's Prevent Duty requirements, Date Palm uses internet filtering and monitoring systems using Kaspersky products. Categories of harmful content are blocked and the IT administrator notified of breaches.

Due to the Covid-19 pandemic, Online Remote Learning has become prevalent. The School has implemented many safety measures to ensure children are safeguarded whilst accessing remote learning. Parents are informed of online safety issues prior to remote learning taking place with suggestions and safety tips. Teachers spend quality time discussing rules with pupils online and reminding them of this routinely. Chats are moderated and access is disabled when not deemed necessary. Pupils are expected to answer questions posed by teachers on a regular basis either via microphone, chat or polls. Where pupils are disengaged, Teachers contact parents in the first instance and inform the DSL if there are concerns with pupil engagement.

The School is committed to ensuring that Online Safety is a running and interrelated theme throughout its safeguarding arrangements including policy and procedure, the curriculum, staff training and induction, the role of the DSL, and parental engagement.

Refer to the E-Safety policy, the Acceptable Use Agreement for staff and pupils and the school's Mobile Phone Policy.

The school continuously reviews its online risk assessment and updates online safety procedures regularly.

Staff should report Online Safety concerns about pupils to the Designated Safeguarding Lead and Digital Safeguarding Lead as with all other safeguarding concerns. When it comes to the safety and well-being of the child, the response to the risks and harms that children may experience in the online or digital environment should be no different than the offline, face to face world. For most children there is little distinction between the online and face to face, physical environments, as the two intersect with one another in their daily lives. Staff should recognise that children's experience of abuse in the digital environment may be even more pronounced, where the identity of the abuser is unknown and the abuse can continue 24 hours a day, 7 days a week.

Staff should be aware that children with known vulnerabilities such as SEND, LAC and PLAC children and Children known to a Social Worker, may be more vulnerable to harm and exploitation in the online and digital environments.

28. DOMESTIC ABUSE

The Domestic Abuse Act 2021 recognises the impact of domestic abuse on children, as victims in their own right, if they see, hear or experience the effects of abuse. The statutory definition of domestic abuse recognises that domestic abuse may occur in different types of relationships, including ex-partners and family members. Domestic Abuse may involve a range of abusive behaviours including physical, emotional and economic abuse and coercive and controlling

behaviour. Both the person who is carrying out the behaviour and the person to whom the behaviour is directed towards must be aged 16 or over and they must be “personally connected”.

Staff should be aware that all children can witness and be adversely affected by domestic abuse in the context of their home life where domestic abuse occurs between family members. Experiencing domestic abuse and/or violence can have a serious, long lasting emotional and psychological impact on children. In some cases, a child may blame themselves for the abuse or may have had to leave the family home as a result. Young people can also experience domestic abuse within their own intimate relationships. This form of peer on peer abuse is sometimes referred to as ‘teenage relationship abuse’.

School has signed up to the Metropolitan Police’s Operation Encompass system and on receipt of a notification from the Police will provide appropriate support to the child or children concerned, who attend the school. Operation Encompass ensures that when police are called to an incident of domestic abuse, and where there are children in the household, the police will inform the school’s Designated Safeguarding Lead before the child or children arrive at school the following day. The purpose of Operation Encompass is to enable the school to provide ‘silent support’ and is not intended to replace statutory procedures.

29. SO-CALLED HONOUR-BASED ABUSE

Female Genital Mutilation (FGM) So-called honour-based abuse (HBV) encompasses incidents or crimes which have been committed to protect or defend the honour of the family and/or the community, including female genital mutilation (FGM), forced marriage, and practices such as breast ironing. Abuse committed in the context of preserving “honour” often involves a wider network of family or community pressure and can include multiple perpetrators. It is important to be aware of this dynamic and additional risk factors when deciding what form of safeguarding action to take. All forms of HBV are abuse (regardless of the motivation) and should be handled and escalated as such. Professionals in all agencies, and individuals and groups in

relevant communities, need to be alert to the possibility of a child being at risk of HBV, or already having suffered HBV. Actions If staff have a concern regarding a child that might be at risk of HBV or who has suffered from HBV, they should speak to the designated safeguarding lead (or deputy). As appropriate, they will activate local safeguarding procedures, using existing national and local protocols for multiagency liaison with police and children’s social care.

Where FGM has taken place, since 31 October 2015 there has been a mandatory reporting duty placed on teachers⁸ that requires a different approach (see following section).

FGM FGM comprises all procedures involving partial or total removal of the external female genitalia or other injury to the female genital organs. It is illegal in the UK and a form of child abuse with long-lasting harmful consequences.

FGM mandatory reporting duty for teachers Section 5B of the Female Genital Mutilation Act 2003 (as inserted by section 74 of the Serious Crime Act 2016) places a statutory duty upon teachers along with regulated health and social care professionals in England and Wales, to report to the police where they discover (either through disclosure by the victim or visual evidence) that FGM appears to have been carried out on a girl under 18.

Those failing to report such cases will face disciplinary sanctions. It will be rare for teachers to see visual evidence and they should not be examining pupils, but the same definition of what is meant by “to discover that an act of

FGM appears to have been carried out” is used for all professionals to whom this mandatory reporting duty applies. Information on when and how to make a report can be found at: Mandatory reporting of female genital mutilation procedural information. Teachers must personally report to the police cases where they discover that an act of FGM appears to have been carried out.⁹ Unless the teacher has good reason not to, they should still consider and discuss any such case with the school or college’s designated safeguarding lead (or deputy) and involve children’s social care as appropriate.

The duty does not apply in relation to at risk or suspected cases (i.e. where the teacher does not discover that an act of FGM appears to have been carried out, either through disclosure by the victim or visual evidence) or in cases where the woman is 18 or over. The following is a useful summary of the FGM mandatory reporting duty:

FGM Fact Sheet.

Further information can be found in the Multi-agency statutory guidance on female genital mutilation and the FGM resource pack particularly section 13. Forced marriage Forcing a person into marriage is a crime in England and Wales. A forced marriage is one entered into without the full and free consent one or both parties and where violence, threats or any other form of coercion is used to cause a person to enter into a marriage. Threats can be physical or emotional and psychological. A lack of full and free consent can

Whilst all staff should speak to the DSL (or deputy) with regard to any concerns about FGM, there is a specific legal duty on teachers. If a teacher, in the course of their work in the profession, discovers that an act of FGM appears to have been carried out on a girl under the age of 18, the teacher must report this to the police

(appendix 1)

All forms of so-called Honour Based Abuse are abuse (regardless of the motivation) and should be handled and escalated as such. Professionals in all agencies, and individuals and groups in relevant communities, need to be alert to the possibility of a child being at risk of Honoured Based Abuse, or already having suffered Honour Based Abuse.

If staff have a concern regarding a child who might be at risk of Honour Based Abuse or who has suffered from Honour Based Abuse, they should speak to the Designated Safeguarding Lead, who will follow local safeguarding procedures.

In England, Wales and Northern Ireland, FGM is a criminal offence under the Female Genital Mutilation Act 2003.

[Cross-reference to the HM Government Multi-Agency Statutory Guidance on FGM, Updated 30th July 2020]

Section 5B of the Female Genital Mutilation Act 2003 (as inserted by section 74 of the Serious Crime Act 2015) places a statutory duty upon **teachers**, along with regulated health and social care professionals in England and Wales, to report to the police where they discover (either through disclosure by the victim or visual evidence) that FGM appears to have been carried out on a girl under 18. Those failing to report such cases may face disciplinary sanctions. It will be rare for teachers to see visual evidence, and they should **not** be examining pupils or students. Teachers **must** personally report to the police cases where they discover that an act of FGM appears to have been carried out. However, teachers should notify the Designated Safeguarding Lead of this action as well as reporting the disclosure of FGM in line with school's safeguarding procedures.

Staff need to understand that the duty on teachers to report to the police does not apply in relation to at risk or suspected cases (i.e. where the teacher does not discover that an act of FGM appears to have been carried out, either through disclosure by the victim or visual evidence) or in cases where the woman is 18 or over. In these cases, teachers should follow local safeguarding procedures and report concerns to the Designated Safeguarding Lead. If in doubt, staff should speak to the Designated Safeguarding Lead.

In England and Wales, the practice of Forced Marriage is a criminal offence under the Anti-Social Behaviour, Crime and Policing Act 2014.

[Cross-reference to the Forced Marriage Unit's Statutory Guidance and Multi Agency Guidelines]

30. RADICALISATION AND EXTREMISM

Children are vulnerable to extremist ideology and radicalisation. Similar to protecting children from other forms of harms and abuse, protecting children from this risk is part of the school's safeguarding approach.

- Extremism is the vocal or active opposition to our fundamental values, including democracy, the rule of law, individual liberty and the mutual respect and tolerance of different faiths and beliefs. This also includes calling for the death of members of the armed forces.
- Radicalisation refers to the process by which a person comes to support terrorism and extremist ideologies associated with terrorist groups.
- Terrorism is an action that endangers or causes serious violence to a person/people; causes serious damage to property; or seriously interferes or disrupts an electronic system. The use or threat must be designed to influence the government or to intimidate the public and is made for the purpose of advancing a political, religious or ideological cause.

There is no single way of identifying whether a child is likely to be susceptible to an extremist ideology. Background factors combined with specific influences such as family and friends may

contribute to a child's vulnerability. Similarly, radicalisation can occur through many different methods (such as social media or the internet) and settings (such as within the home).

Preventing radicalisation

Children are vulnerable to extremist ideology and radicalisation. Similar to protecting children from other forms of harm and abuse, protecting children from this risk should be a part of a school's or college's safeguarding approach.

Extremism is the vocal or active opposition to our fundamental values, including the rule of law, individual liberty and the mutual respect and tolerance of different faiths and beliefs. This also includes calling for the death of members of the armed forces. Radicalisation¹¹ refers to the process by which a person comes to support terrorism and extremist ideologies associated with terrorist groups.

Terrorism is an action that endangers or causes serious violence to a person/people; causes serious damage to property; or seriously interferes or disrupts an electronic system. The use of threat must be designed to influence the government or to intimidate the public and is made for the purpose of advancing a political, religious or ideological cause. There is no single way of identifying whether a child is likely to be susceptible to an extremist ideology. Background factors combined with specific influences such as family and friends may contribute to a child's vulnerability.

Similarly, radicalisation can occur through many different methods (such as social media) and settings (such as the internet). However, it is possible to protect vulnerable people from ideology and intervene to prevent those at risk of radicalisation being radicalised.

As with other safeguarding risks, staff should be alert to changes in children's behaviour which could indicate that they may be in need of help or protection. Staff should use their judgement in identifying children who may be at risk of radicalisation and act proportionately which may include the designated safeguarding lead (or deputy) making a referral to the Channel programme. The school's DSL (and DDSL's) should be aware of local procedures for making a Prevent referral.

The Prevent duty All schools and colleges are subject to a duty under section 26 of the Counter-Terrorism and Security Act 2015 (the CTSA 2015), in the exercise of their functions, to have "due regard¹³ to the need to prevent people from being drawn into terrorism".¹⁴ This duty is known as the Prevent duty.

The Prevent duty should be seen as part of schools' and colleges' wider safeguarding obligations. Designated safeguarding leads and other senior leaders should familiarise themselves with the Revised Prevent duty guidance: for England and Wales, especially paragraphs 57-76 which are specifically concerns with schools (and also covers childcare).

The guidance is set out in terms of four general themes: Risk assessment, working in partnership, staff training, and IT policies. Channel is a voluntary, confidential support programme which focuses on providing support at an early stage to people who are identified as being vulnerable to being drawn into terrorism. Prevent referrals may be passed to a multi-agency Channel panel, who will discuss the individual referred to determine whether they are vulnerable to being drawn into terrorism and consider the appropriate support required. A representative from the school may be asked to attend the Channel panel to help with this assessment.

An individual's engagement with the programme is entirely voluntary at all stages. The DSL should consider if it would be appropriate to share any information with the new school or college in advance of the child leaving.

For example, information that would allow the new school or college to continue supporting victims of abuse or those who are currently receiving support through the 'Channel' programme, and have that support in place for when the child arrives. Guidance on Channel is available at: Channel Guidance. Additional support The department has published advice for schools on the Prevent duty.

The advice is intended to complement the Prevent guidance and signposts other sources of advice and support. There is additional guidance: Prevent duty guidance: for further education institutions in England and Wales that applies to colleges. The Home Office has developed three e-learning modules:

- Prevent awareness e-learning offers an introduction to the Prevent duty.
- Prevent referrals e-learning supports staff to make Prevent referrals that are robust, informed and with good intention.

Channel awareness e-learning is aimed at staff who may be asked to contribute to or sit on a multi-agency Channel panel. Educate Against Hate, is a government website designed to support school teachers and leaders to help them to safeguard their students from radicalisation and extremism.

The platform provides free information and resources to help school staff identify and address the risks, as well as build resilience to radicalisation. For advice specific to further education, the Education and Training Foundation (ETF) hosts the Prevent for FE and Training.

This hosts a range of free, sector specific resources to support further education settings comply with the Prevent duty.

This includes the Prevent Awareness e-learning, which offers an introduction to the duty, and the Prevent Referral, which is designed to support staff to make robust, informed and proportionate referrals.

The ETF Online Learning environment provides online training modules for practitioners, leaders and managers, support staff and governors/Board members outlining their roles and responsibilities under the duty.

Statutory guidance on the Prevent duty, which explains schools' duties under the Counter-Terrorism and Security Act 2015 with respect to protecting people from the risk of radicalisation and extremism.

Curriculum

The curriculum provides children the opportunity to engage, discuss and explore issues of own and other religion during Religious Education lessons. Furthermore, ethnicity, culture and British Values explored through our vast high quality literature, PSHE, school trips and cultural experience.

In LBTH the Prevent Education Officer is Eleanor Knight Eleanor.Knight@towerhamlets.gov.uk.

In LBTH all Prevent referrals related to children should be made through the Multi Agency Safeguarding Hub.

31. PEER ON PEER ABUSE

Staff must be aware that children may be harmed by other children.

Peer on Peer Abuse can happen both inside and outside of school including online. It is important that all staff recognise the indicators and signs of peer on peer abuse.

Staff should treat all reports of peer on peer abuse very seriously and make it clear that all forms are unacceptable. Abuse is abuse and will never be dismissed as 'banter' or 'part of growing up'. School adopts a Zero Tolerance Approach to peer on peer abuse.

All staff should recognise that even though there are no reported cases of peer on peer abuse among pupils, such abuse may still be taking place and it is simply not being reported.

Staff should be aware that it is more likely that boys will be perpetrators of peer on peer abuse and girls will be victims of peer on peer abuse. However, all forms of peer on peer abuse are unacceptable and will not be tolerated at the school.

Staff should recognise that peer on peer abuse can take many forms and may be facilitated by technology, including:

- bullying (including cyberbullying, prejudice-based and discriminatory bullying)
- physical abuse such as biting, hitting, kicking or hair pulling
- sexually harmful behaviour and sexual abuse including inappropriate sexual language, touching, sexual assault or rape
- causing someone to engage in sexual activity without consent, such as forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party
- consensual and non-consensual sharing of nudes and semi-nudes images and/or videos
- teenage relationship abuse – where there is a pattern of actual or threatened acts of physical, sexual or emotional abuse, perpetrated against a current or former partner
- upskirting – taking a picture under a person's clothing without their knowledge and/or permission with the intention of viewing their buttocks or genitals (with or without underwear) to obtain sexual gratification. It is a criminal offence
- initiation/hazing - used to introduce newcomers into an organisation or group by subjecting them to a series of trials and challenges, which are potentially humiliating, embarrassing or abusive.
- prejudice and discrimination - behaviours which cause a person to feel powerless, worthless or excluded originating from prejudices around belonging, identity and equality, for example, prejudices linked to disabilities, special educational needs, ethnic, cultural and religious backgrounds, gender and sexual identity.

Different gender issues can be prevalent when dealing with peer on peer abuse, for example girls being sexually touched/assaulted or boys being subject to initiation/hazing type violence.

32. PEER ON PEER SEXUAL VIOLENCE AND SEXUAL HARASSMENT

All staff must be aware that sexual violence and sexual harassment can occur between two children of any age and sex from primary to secondary phases and in colleges. It can also occur online. It can also occur through a group of children sexually assaulting or sexually harassing a single child or group of children.

As part of school's wider safeguarding culture, staff should maintain a 'it could happen here' approach in regard to child on child sexual violence or sexual harassment and understand that children may be experiencing such forms of peer on peer abuse, including that facilitated by technology, regardless of the number of reports the DSL receives.

In response to reports including disclosures school will reassure all victims that they are being taken seriously and that they will be supported and kept safe. A victim will never be given the impression that they are creating a problem by reporting sexual violence or sexual harassment. Nor should a victim ever be made to feel ashamed for making a report.

Staff should be aware that some groups are potentially more at risk. Evidence shows girls, children with special educational needs and disabilities (SEND) and LGBTQ+ children are at greater risk. Staff should be aware of the importance of:

- challenging inappropriate behaviours;
- making clear that sexual violence and sexual harassment is not acceptable, will never be tolerated and is not an inevitable part of growing up;
- not tolerating or dismissing sexual violence or sexual harassment as "banter", "part of growing up", "just having a laugh" or "boys being boys"; and
- challenging physical behaviours (potentially criminal in nature), such as grabbing bottoms, breasts and genitalia, pulling down trousers, flicking bras and lifting upskirts. Dismissing or tolerating such behaviours will help to normalise them.

Sexual violence offences are defined under the Sexual Offences Act 2003

Rape: A person (A) commits an offence of rape if: he intentionally penetrates the vagina, anus or mouth of another person (B) with his penis, B does not consent to the penetration and A does not reasonably believe that B consents.

Assault by Penetration: A person (A) commits an offence if: s/he intentionally penetrates the vagina or anus of another person (B) with a part of her/his body or anything else, the penetration is sexual, B does not consent to the penetration and A does not reasonably believe that B consents.

Sexual Assault: A person (A) commits an offence of sexual assault if: s/he intentionally touches another person (B), the touching is sexual, B does not consent to the touching and A does not reasonably believe that B consents. (Schools should be aware that sexual assault covers a very wide range of behaviour so a single act of kissing someone without consent, or touching someone's bottom/breasts/genitalia without consent, can still constitute sexual assault.)

Causing someone to engage in sexual activity without consent: A person (A) commits an offence if: s/he intentionally causes another person (B) to engage in an activity, the activity is sexual, B does not consent to engaging in the activity, and A does not reasonably believe that B consents. (This could include forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party.)

Consent is about having the freedom and capacity to choose. Consent to sexual activity may be given to one sort of sexual activity but not another, e.g. to vaginal but not anal sex or penetration with conditions, such as wearing a condom. Consent can be withdrawn at any time during sexual activity and each time activity occurs.

All Staff need to be aware of the following:

- children under the age of 13 can never consent to any sexual activity;
- the age of consent is 16
- sexual intercourse without consent is rape.

Sexual Harassment is 'unwanted conduct of a sexual nature' that can occur online and offline and both inside and outside of school. Sexual harassment is likely to: violate a child's dignity, and/or make them feel intimidated, degraded or humiliated and/or create a hostile, offensive or sexualised environment.

Sexual Harassment may include the following:

- sexual comments, such as: telling sexual stories, making lewd comments, making sexual remarks about clothes and appearance and calling someone sexualised names;
- sexual "jokes" or taunting;
- physical behaviour, such as: deliberately brushing against someone, interfering with someone's clothes (schools and colleges should be considering when any of this crosses a line into sexual violence - it is important to talk to and consider the experience of the victim) and displaying pictures, photos or drawings of a sexual nature; and

- online sexual harassment. This may be standalone, or part of a wider pattern of sexual harassment and/or sexual violence such as:
 - consensual and non-consensual sharing of nudes and semi-nudes images and/or videos.
 - sharing of unwanted explicit content;
 - upskirting
 - sexualised online bullying
 - unwanted sexual comments and messages, including, on social media
 - sexual exploitation, co-ercion and threats

[Insert here what response and actions school will take when reports of peer on peer sexual violence and sexual harassment are brought to the attention of the DSL, making sure it is in accordance with Keeping Children Safe in Education 2021 Part 5. This should cover the Immediate Response, Risk Assessments, the Ongoing Response and Support for Victim and Perpetrator]

33. Youth Produced Sexual Imagery

Youth Produced Sexual Imagery is one of the terms professionals use to describe the sending or posting of nude or semi-nude images, videos or live streams by children and young people under the age of 18 online. The term 'nudes' is used by young people and covers all types of image sharing incidents. Alternative terms used by children include 'dick pics' or 'pics'.

The sharing of nudes and semi-nudes can happen publicly online, in 1:1 messaging or via group chats and closed social media accounts. It could also involve sharing between devices via services like Apple's AirDrop which works offline. Nude or semi-nude images, videos or live streams may include more than one child or young person.

Incidents may also occur where:

- children and young people find nudes and semi-nudes online and share them claiming to be from a peer
- children and young people digitally manipulate an image of a young person into an existing nude online
- images created or shared are used to abuse peers e.g. by selling images online or obtaining images to share more widely without consent to publicly shame. Such images can be shared via web pages and social media accounts called 'Bait Out' pages/accounts.

Creating and sharing nudes and semi-nudes of under-18s (including those created and shared with consent) is illegal.

When handling disclosures of Youth Produced Sexual Imagery, staff must be aware that it is illegal for staff to view or share such imagery. Staff should immediately report the disclosure to the Designated Safeguarding Lead.

[Outline school's response to Youth Produced Sexual Imagery in accordance with UKCIS's non-statutory guidance, *Sharing Nudes and Semi-Nudes. Advice for Education Settings working with Children and Young People 2020*]

34. BULLYING (INCLUDING CYBERBULLYING)

Bullying is a very serious issue that can cause anxiety and distress. All incidences of bullying, including cyber-bullying and prejudice-based bullying should be reported and will be managed through the school's Anti-Bullying Policy/Pupil Behaviour Policy/Peer on Peer Abuse Policy.

[Insert statement summarising the relevant policy that staff use when responding to incidents of Bullying/Cyberbullying]

(See Anti-bullying policy)

35. HOMELESSNESS

36. Being homeless or at risk of becoming homeless presents a real risk to a child's welfare. The designated safeguarding lead (and any deputies) should be aware of contact details and referral routes in to the Local Housing Authority so they can raise/progress concerns at the earliest opportunity. Indicators that a family may be at risk of homelessness include household debt, rent arrears, domestic abuse and anti-social behaviour, as well as the family being asked to leave a property. Whilst referrals and/or discussion with the Local Housing Authority should be progressed as appropriate, this does not, and should not, replace a referral into children's social care where a child has been harmed or is at risk of harm.

The Homelessness Reduction Act 2017 places a new legal duty on English councils so that everyone who is homeless or at risk of homelessness will have access to meaningful help including an assessment of their needs and circumstances, the development of a personalised housing plan, and work to help them retain their accommodation or find a new place to live. The following factsheets usefully summarise the new duties.

Homeless Reduction Act Factsheets. The new duties shift focus to early intervention and encourage those at risk to seek support as soon as possible, before they are facing a homelessness crisis. In most cases school and college staff will be considering homelessness in the context of children who live with their families, and intervention will be on that basis. However, it should also be recognised in some cases 16- and 17-year olds could be living independently from their family home, and will require a different level of intervention and support. Children's services will be the lead agency for these young people and the

designated safeguarding lead (or a deputy) should ensure appropriate referrals are made based on the child's circumstances.

37. CHILDREN AND THE COURT SYSTEM

Children are sometimes required to give evidence in criminal courts, either for crimes committed against them or for crimes they have witnessed. There are two age appropriate guides to support children 5-11 year olds and 12-17 year olds. They explain each step of the process and support and special measures that are available. There are diagrams illustrating the courtroom structure and the use of video links is explained. Making child arrangements via the family courts following separation can be stressful and entrench conflict in families. This can be stressful for children. The Ministry of Justice has launched an online child arrangements information tool with clear and concise information on the dispute resolution service. This may be useful for some parents and carers.

38. CHILDREN WITH FAMILY MEMBERS IN PRISON

Approximately 200,000 children in England and Wales have a parent sent to prison each year. These children are at risk of poor outcomes including poverty, stigma, isolation and poor mental health. NICCO provides information designed to support professionals working with offenders and their children, to help mitigate negative consequences for those children.

39. PRIVATE FOSTERING

Private fostering occurs when a child under the age of 16 (under 18 for children with a disability) is provided with care and accommodation by a person who is not a parent, person with parental responsibility for them or a relative in their own home.

A child is not privately fostered if the person caring for and accommodating them has done so for less than 28 days and does not intend to do so for longer.

Such arrangements may come to the attention of school staff through the normal course of their interaction, and promotion of learning activities, with children.

Where the arrangements come to the attention of the school or college (and the school or college is not involved in the arrangements), they should then notify the local authority to allow the local authority to check the arrangement is suitable and safe for the child.

Schools and colleges who are involved (whether or not directly) in arranging for a child to be fostered privately must notify local authorities of the arrangement as soon as possible after the arrangement has been made.

40. YOUNG CARERS

It is estimated by the Children's Society that 1 in 5 children are young carers and many are hidden and unidentified. School recognises that Young carers have the right to an assessment by the local authority to identify needs and support and the person they are caring for can have a reassessment

of their needs. The DSL will seek information and support from the LBTH Young Carers Program when identifying young carers and refer accordingly: Young.Carers@towerhamlets.gov.uk

41. CHILD ABDUCTION AND COMMUNITY SAFETY INCIDENTS

Child abduction is the unauthorised removal or retention of a child from a parent or anyone with legal responsibility for the child. Child abduction can be committed by parents or other family members; by people known but not related to the victim (such as neighbours, friends and acquaintances); and by strangers.

All incidents of Child Abduction should be reported immediately to the Police and Children's Social Care.

Other community safety incidents in the vicinity of a school can raise concerns amongst staff, children and parents, for example, people loitering nearby or unknown adults engaging children in conversation. All incidents that occur during the school day should be immediately reported to the DSL, and steps taken to ensure the safety and well-being of the children involved.

42. MODERN SLAVERY

Modern slavery encompasses human trafficking and slavery, servitude and forced or compulsory labour. Exploitation can take many forms, including: sexual exploitation, forced labour, slavery, servitude, forced criminality and the removal of organs.

Further information on the signs that someone may be a victim of modern slavery, the support available to victims and how to refer them to the National Referral Mechanism is available in the Modern Slavery Statutory Guidance.

43. TAKING SAFEGUARDING ACTION

Any child, in any family in any school could become a victim of abuse. Staff should always maintain an attitude of "it could happen here". Key points for staff to remember are:

- in an emergency take the action necessary to help the child (including calling 999)
- report your concern as soon as possible to the DSL, no later than the end of the day
- do not start your own investigation
- share information on a need-to-know basis only – do not discuss the issue with colleagues, friends or family
- complete a record of concern (appendix 2)
- seek support for yourself if you are distressed.

44. EARLY HELP

All staff are trained and prepared to identify children who may benefit from Early Help, which is providing support as soon as a problem emerges at any point in a child's life.

The Tower Hamlets Early Help Strategy recognises the important role schools have in identifying children and families who are at risk of poor outcomes without early intervention.

All staff need to recognise that all children may benefit from Early Help at any point in their childhood, but some children may benefit from Early Help more than others. These are children with known vulnerabilities, which are listed on page 9 of this policy.

All staff should be aware of the early help process and understand their role within it. This includes providing support as soon as a problem emerges, liaising with the DSL, and sharing information with other professionals in order to support early identification and assessment, focussing on providing interventions to avoid escalation of worries and needs.

In some cases, staff may be asked to act as the lead professional in undertaking an early help assessment. Any child may benefit from early help, but all school and college staff should be particularly alert to the potential need for early help for a child who:

- is disabled or has certain health conditions and has specific additional needs
- has special educational needs (SEND) (whether or not they have a statutory Education, Health and Care Plan)
- has a mental health need
- is a young carer
- is showing signs of being drawn in to anti-social or criminal behaviour, including gang involvement and association with organised crime groups or county lines
- is frequently missing/goes missing from care or from home
- is at risk of modern slavery, trafficking or sexual or criminal exploitation
- is at risk of being radicalised or exploited
- has a family member in prison, or is affected by parental offending
- is in a family circumstance presenting challenges for the child, such as drug and alcohol misuse, adult mental health issues or domestic abuse
- is misusing drugs or alcohol themselves
- has returned home to their family from care
- is at risk of 'honour'-based abuse such as Female Genital Mutilation (FGM) or forced marriage
- is a privately fostered child
- is persistently absent from education, including persistent absences for part of the school day

Knowing what to look out for is vital to the early identification of abuse and neglect and specific safeguarding issues such as child criminal exploitation and child sexual exploitation.

If staff are unsure, they should always speak to the DSL (DDSL). If in exceptional circumstances the DSL (or DDSL) is not available, this should not delay appropriate action being taken. Staff should consider speaking to a member of the senior leadership team and/or take advice from children's social care. In these circumstances, any action taken should be shared with the DSL as soon as is practically possible.

The DSL will contact the LBTH Early Help Hub for support and advice if required:

LBTH Early Help Hub:
0207 364 5006 (option 2)

Alternatively, the DSL will complete an Early Help Enquiry form which can be accessed via <https://bit.ly/2AA2WNy>

The DSL will apply the LBTH Thresholds Guidance to decide what level of safeguarding response is required as part of the Early Help response. If in doubt about the level of need the DSL will telephone the LBTH Multi Agency Safeguarding Hub (MASH) for a discussion.

MASH:
020 7364 5006 (Option 3) 020 7364 5601/5606

Child Protection Advice Line
020 7364 3444

If a child has been receiving Early Help support from the school and other agencies and there is no improvement in the child's outcomes, then the DSL must refer the child to Children's Social Care.

45. HANDLING DISCLOSURES

When a child discloses that they have been or are being abused including exploitation and neglect, they may feel ashamed, especially if the abuse is sexual, and feel frightened lest their abuser finds out they have made a disclosure. The child may have been threatened, they may have lost all trust in adults; or may believe that they are to blame for the abuse. Sometimes the child may not understand that what is happening is abusive.

All staff should reassure victims that they are being taken seriously and that they will be supported and kept safe. A victim should never be given the impression that they are creating a problem by reporting abuse, sexual violence or sexual harassment. Nor should a victim ever be made to feel ashamed for making a report.

Staff should never promise a child that they will not tell anyone about a report of abuse, as this may ultimately not be in the best interests of the child. During their conversations with the pupils, staff will:

- allow the child to speak freely
- remain calm
- allow silences
- do not ask leading questions
- tell the pupil what will happen next

- inform the DSL as soon as possible
- seek support if they feel distressed.

Normally, when there are Safeguarding concerns, the DSL will contact parents before making a referral to Children's Social Care Services. However, there are some exceptions; see below.

Physical injury, emotional abuse or neglect

1. The DSL will contact Children's Social Care Services. If there has been a deliberate injury or where there are concerns about the child's safety, the child's parents should not be contacted before first consulting with social services.
2. Where emergency medical attention is necessary it will be sought immediately. The
 - a. DSL should inform the doctor of any suspicion of abuse.
3. If a referral is being made without the parent's knowledge and non-urgent medical a. treatment is required, social services should be informed. Otherwise, speak

to the parent and suggest medical attention should be sought for the child.
4. If a pupil is thought to be at immediate risk because of parental violence,

intoxication, substance abuse, mental illness or threats to remove the child during the school day, for example, urgent Police intervention should be requested.
5. If a pupil is known to be or become a victim of FGM (Female Genital Mutilation) or

there are signs that a pupil may be victim of forced marriage, the DSL should be consulted, whom will contact the Social Services and the police if necessary.
6. If a pupil shows signs of radicalisation and seems to be attracted to extremism the DSL should be consulted, who will contact the local prevent team.

46. CONFIDENTIALITY AND SHARING INFORMATION

Staff should not assume a colleague or another professional will take action and share information that might be critical in keeping children safe. They should be mindful that early information sharing is vital for effective identification, assessment and allocation of appropriate service provision. Serious Case Reviews have highlighted failures in safeguarding systems in which people did not share information at the earliest opportunity or did not share at all. If in any doubt about sharing information, staff should speak to the designated safeguarding lead or a deputy. Fears about sharing information must not be allowed to stand in the way of the need to promote the welfare and protect the safety of children.

All staff should understand that safeguarding requires a high level of confidentiality. Staff should only discuss concerns with the DSL, Deputy DSL or the headteacher.

Any member of staff can contact children's social care if they are concerned about a child but should inform the DSL as soon as possible that they have done so.

The DSL will have due regard to the Data Protection Act 2018 and General Data Protection Regulation (GDPR) to ensure that personal information is processed fairly and lawfully and they will adhere to the seven golden rules for sharing information. Information sharing will take place in a timely and secure manner. The GDPR and the Data Protection Act 2018 do not prevent school staff from sharing information with relevant agencies, as safeguarding and protecting children provide a legal basis for sharing information.

Information sharing decisions will be recorded, whether or not the decision to share has been taken. Child protection information will be stored securely separate from the pupil's school file. Child protection information is stored and handled in line with the school's Retention and Destruction Policy.

47. REFERRING TO CHILDREN'S SOCIAL CARE

The DSL will make a referral to children's social care applying the LBTH Threshold Guidance if it is believed that a pupil is suffering or is at risk of suffering significant harm, or the child is considered to be in need, that is a child who is unlikely to achieve or maintain a reasonable level of health or development, or whose health and development is likely to be significantly or further impaired, without the provision of services.

LBTH Multi-Agency Safeguarding Hub:

020 7364 5006 (Option 3) 020 7364 5601/5606

Child Protection Advice Line:

020 7364 3444

When the DSL completes a MASH referral form and sends it securely to the Multi-Agency Safeguarding Hub, the referral form will be accurate and sufficiently detailed to enable the MASH Assessment and Intervention Team to make a decision on the level of statutory response required.

If the child is already known to Children's Social Care, then the DSL will communicate safeguarding concerns with the allocated Social Worker.

[Insert flowchart on how safeguarding reports are handled within the school]

48. ESCALATION PROCEDURES

If, after a referral to Children's Social Care, the child's situation does not appear to be improving, the DSL will consider following local escalation procedures to ensure their concerns have been addressed and that the child's situation improves.

In accordance with the Tower Hamlets Threshold Guidance Appendix D the DSL will first make contact with the team manager followed by the service manager followed by the divisional director. At every level of escalation there should be discussion and concerted effort to resolve any professional difference.

Appendix 1 – Safeguarding Disclosure Form

Safeguarding Disclosure Form		
Please complete this form following any disclosure and return it to the Designated Safeguarding Lead (Afsana Khanam) immediately. Use the child's/parent's word as much as you can. Do not add information. Only write what you heard and observed. Do not give your opinion.		
Date	Time	Place of conversation/ incident

Poster

Multi-
Agency

Safeguarding Hub (MASH)

020 7364 3444 / 5601 / 5606

If there is a concern about the welfare of a child or young person and you would like to talk it through then you should contact the Tower Hamlets Children and Culture Directorate's Multi-Agency Safeguarding Hub (MASH).

The Duty Officer will be able to discuss the concern, assist in deciding whether a formal child protection referral is appropriate and facilitate the reporting of a formal child protection referral in accordance with Tower Hamlets Safeguarding Children Partnership (THSCP) Procedures and to offer advice.

When there is a specific concern of a child protection nature whereby it is thought that a child has been harmed or at risk of being harmed then the LBTH Inter-Agency Referral Form should be completed in the first instance. The MASH should then be contacted on 0207 364 3444 / 5601 / 5606 to discuss the matter and the completed Inter-Agency Referral Form then emailed/faxed through.

The MASH operates between 9.00am and 5.00pm except at weekends and on public holidays. If the concern arises outside of the hours operated by the MASH and it is believed the child may be at immediate risk the Children's Social Care Emergency Out of Hours Duty Team or the Police should be contacted without delay.

Important contact information:

Multi-Agency Safeguarding Hub (MASH) email Note – information should only be emailed following prior discussion with the Duty Officer.	: MASH@towerhamlets.gov.uk

Appendix 3: MASH Interagency Referral Form

INTER-AGENCY REFERRAL FORM

This form is to be used by all agencies referring child/children to London Borough of Tower Hamlets CSC for assessment as a child in need, including in need of protection.

All urgent referrals should be initiated by phone/fax and with completion of as much of this form as possible or an updated CAF or a Signs of Safety Mapping tool. If information is incomplete, a MASH worker will work through the form to ensure the information is accurate and good quality. If you are a service provider in Tower Hamlets, as part of the Family Wellbeing Model, you may be asked to provide a CAF as well as this form. You should get feedback within 24 hours on this referral and we will proactively work with you and other services to ensure a service is provided to the child, even if it does not meet the thresholds for a statutory response as outlined in the Family Wellbeing Model.

A. CHILD/ YOUNG PERSON

H. INFORMATION SUPPORTING THIS REFERRAL

The purpose of this section is to assist the inter-agency assessment. Where you have no information about a particular area, please write N/K (not known). Please record strengths as well as areas of need or risk so that resources can be directed appropriately.

REASON FOR REFERRAL/REQUEST FOR SERVICES

What are your concerns? (If an allegation of possible physical abuse, please give specific details of any injury including dates and explanations given)

Scale how safe you think the child is:

With 0 being I am certain the abuse will happen again if something is not done immediately and 10 being the case needs action but I don't think the child is in immediate danger, what rating would you give?

Comments on Score: Please tell us how you reached this score.

What existing safety is there for the child(ren) – are there safe people around the child?

What are you most worried will happen to the child(ren) if the situation doesn't change?

What convinced you to take action now and contact us?

Have you done anything to address this problem (apart from making this referral)? For example has your agency used a CAF or a TAC to focus professional efforts on addressing the concerns? Has the Social Inclusion Panel been consulted for support?

What do you see as the cause of the problem?

What do you expect to happen as a result of this notification?

I. DETAILS OF REFERRER AND SOCIAL WORKER TAKING REFERRAL

Name of worker completing this referral (please print)			
Agency			
Address			
Ward/Consultant			
Telephone number			
Signature		Date	

Name of social worker taking referral			
Team		Date	

Social work context scale (for social worker to complete):

On a scale of 0 to 10 with 0 being this is the worst case that the agency has ever worked with and 10 indicates that this is a case the agency would take no further action with, where would you rate yourself?

Appendix 4: Safeguarding flowchart
